microBlocks
Small, Fast, Human Friendly
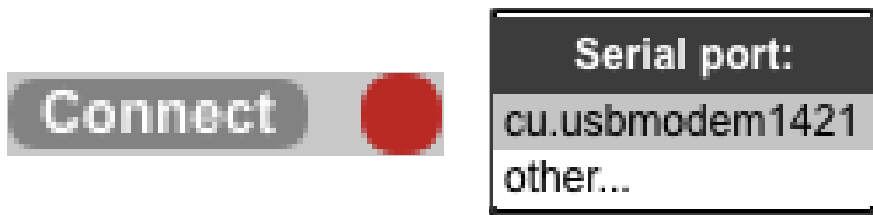

Getting Started: BBC micro:bit

Visit microblocks.fun and download Microblocks for free!

Note: on some Macs, you'll need to right click on the Microblocks app and select Open.

Connect the BBC micro:bit to a computer with a USB cable (note: make sure the USB cable is not a power only USB).

In the upper left corner of the Microblocks screen, you'll see a Connect button with a red circle next to it. Choose connect and select the first option.

Serial port:
cu.usbmodem1421
other...

You should see the red circle turn to green and you are ready to code your micro:bit!
